TIPS & TRICKS

We recommend boiling your hops in a hop bag (muslin sock) or straining them out before primary fermentation.

Adding Irish moss or Whirlfloc to your boil for the last 15 min. is a nice touch for better clarity, but not essential. (Not included in kit)

Dry Hopping: Transfer (rack) the beer by siphoning to a 5-gallon secondary fermenter. At this point add the Cascade Cryo Hop to the fermenter (Dry Hop). Allow your beer to finish fermenting and absorb the fresh hop aroma. Approx. 1 to 2 weeks.
