5 oz. Bottling Primer

BREW DAY

Mash 151°F (66°C) for 60 min.

Sparge to achieve 6.5 Gallons

Boil for 1 hour.

5.5 ending kettle volume

Ferment at 56-70°F (13-21°C)

TIPS & TRICKS

We recommend boiling your hops in a hop bag (muslin sock) or straining them out before primary fermentation.

Adding Irish moss or Whirlfloc to your boil for the last 15 min. is a nice touch for better clarity, but not essential. (Not included in kit)

Try to ferment on the cooler side of the yeast's temperature range, for a crisper, lager-like finish.
